

Count on WIC for healthy kids!

1

WIC is for moms and kids.

WIC is the Women, Infants, and Children Supplemental Nutrition Program. It's a nutrition program for pregnant women, moms with new babies and children under five years old who live in California.

WIC helps you and your children to be healthy.

We give you special checks to buy nutritious foods such as fruits and vegetables, milk and cheese, whole-grain breads and cereals, and more. We show you how to feed your family to make them healthier. We also bring moms and babies closer together by helping with breastfeeding. And we can refer you to low-cost or free health care and other community resources.

3

You may qualify for WIC.

Families with limited incomes, including working families, may qualify for WIC. WIC provides these services, and more, at no cost to you. Call WIC today for more information or an appointment.

San Joaquin County Public Health Services WIC Program

This institution is an equal opportunity provider.
